INTRODUCTION

The Commission on Teacher and Administrator Education, Certification and Licensure and Development was created under the Mississippi Education Reform Act of 1982 and is charged with the responsibility of making recommendations to the State Board of Education regarding standards for the preparation, licensure, and continuing professional development of those who teach or perform tasks of an educational nature in the public schools of the State of Mississippi. In compliance with Miss. Code Ann. §37-3-2, as amended by Mississippi Laws 1997, Ch. 545, the Commission on Teacher and Administrator Education, Certification and Licensure and Development and the State Board of Education have approved guidelines for licensure.

This manual contains information necessary to understand the licensure processes, class levels of licensure, and pathways to licensure. Proper use of this manual should provide answers to most, if not all, general and specific questions related to educator licensure in the State of Mississippi.

The Division of Educator Licensure is the sole program office within the Mississippi Department of Education authorized to issue licenses and to implement Mississippi's laws and policies adopted by the Mississippi State Board of Education relating to the licensing of teachers, instructional support personnel, and administrators for preschool through Grade 12 (P-12). Policies, rules, standards, directives, and memoranda written prior to this version of the manual are invalid and shall not be used to determine the application of these guidelines unless otherwise noted herein.

Applicants for educator licensure shall meet all requirements for the selected approach in effect on the date the complete application is received in the Division of Educator Licensure.

References to job/skill related area include pedagogy and skills for effective teaching and leadership (e.g., computer technology, cooperative learning, learning styles, methodology, etc.).

The Mississippi Department of Education no longer approves programs for professional learning credit. School districts, organizations, or individuals wishing to prepare and offer a program for professional learning credit must submit an application to an accredited professional learning credit granting agency. All professional learning credit(s) must be in content or job/skill related area. For a list of CEU professional learning providers, go to: <https://www.mdek12.org/OEL/Renew-or-Reinstate-My-License>. Please note that the list referenced herein is not intended to be all inclusive rather, it is to be viewed as a starting point for access to professional learning.

Educators can complete and submit an application for licensure renewal and upload a PDF copy of the original CEU certificates and/or National Board documentation to be used for renewal via his/her educator licensure management account. If submitting documentation of coursework, official sealed copies of the applicant's transcript(s) must be submitted electronically directly from the respective college/university to the Division of Educator Licensure. For instructions on this process, please visit: <https://www.mdek12.org/OEL/Document-Submission>

A completed application packet includes the licensure application and all supporting documentation required for your requested license type. Applications that are submitted without supporting documents will be considered incomplete and the educator will be emailed a "requirements" letter stating which documents are needed to process the licensure request. Please review the Licensure Application Checklist to identify the documents required for obtaining licensure in your desired area of certification: <https://www.mdek12.org/OEL/Licensure-Application-Checklist>.

When capturing a photograph of the document to be submitted, please be sure to remove any content and/or extra spacing that is not part of the document.

This should be done prior to document upload to not obstruct access to information pertinent to reviewing and processing your licensure request. All documents submitted to the Division of Educator Licensure become the property of the Mississippi Department of Education and will not be returned to the applicant, unless otherwise stated, nor will the Department provide copies of the documents to the applicant or third parties. Only the following documents will be duplicated and returned to the applicant if submission is required: Original – Out-of-state license, Professional Association Card, Marriage License, Birth Certificate, and Licensure Test Score Report. MISSISSIPPI DEPARTMENT OF EDUCATION GUIDELINES FOR THE EXTENSION OF CERTAIN PROVISIONAL NONRENEWABLE LICENSE TYPES
--

(1) Purpose. The purpose of this policy is to provide criteria for the one-time one-year extension of certain provisional nonrenewable license types obtained via the completion of prelicensure requirements of a Mississippi State Board of Education approved nontraditional teacher preparation program.

(2) Requirements. The one-time one-year extension of the provisional nonrenewable license type may be granted to an individual that has not met all licensure requirements for converting the Entry-Level Teaching License to the standard clear renewable license type, at the time the application for the one-time one-year extension is submitted to the Division of Educator Licensure. This special, one-time one-year extension provides a candidate that experienced extenuating circumstances that impeded their ability to complete all licensure requirements within the validity period assigned to the initial provisional Entry-Level Teaching License held, one additional year to complete all remaining requirements for converting the provisional license to the standard level.

A Mississippi educator who holds or previously held a provisional nonrenewable Mississippi license and has not met all licensure requirements for converting the Entry-Level Teaching License to the standard clear renewable license type, at the time the application is received by the Division of Educator Licensure shall have the previous license extended one time for one year under the following conditions:

1. The previously issued provisional nonrenewable license must have expired or be within three months of its expiration date;
and
2. The educator shall have secured a position at a local school district or an eligible nonpublic school in the state of Mississippi for the purpose of completing all remaining licensure requirements in effect on the date the complete application for the one-time one-year extension is received by the Division of Educator Licensure;
and
3. The one-time one-year extension shall be requested by the Educator Preparation Provider that made the initial recommendation for the three-year nonrenewable entry-level license, if applicable.

(3) Validity. The one-time one-year license extension is valid for one (1) school year.

The educator shall meet all current program and licensure requirements for a standard, five (5) year renewable license by the expiration of the one (1) year extension.

Specific restrictions apply:

- Extensions will be granted in circumstances of hardship, which may include severe illness, disability, military service, or other valid justifications. Applicants are required to provide a written explanation that outlines the specific reasons for their request. Additionally, supporting documentation may be requested, such as a physician's statement for requests related to health issues, as part of the recommendation.
- The one-time one-year extension can be issued in any applicable endorsement area offered by the following approved State Board of Education licensure-track educator licensure pathways or other pathways that may be adopted in the future: Master of Arts in Teaching Program; Teach Mississippi Institute; Career and Technical Education Entry-Level Teaching License; American Board for Certification of Teacher Excellence; Teach for America; iteach Mississippi.
- This license type does not include any local district-requested license type.
- Additional endorsements may be added to the extended license by way of completion of appropriate requirements approved by the Mississippi State Board of Education and shall be requested by the candidate only.
- The license shall be issued at the class level held prior to the expiration of the license to be extended and shall not be upgraded to a higher-class level during the extension period.

- This policy only applies to entry-level teaching licenses granted through an active Mississippi State Board of Education approved licensure-track teacher preparation program and pathway.
